

Formal & Swim Uniforms

SCUBAnaut Uniform

*Rank Pins may be worn on collar.

Swimwear Requirements

Any brand of sport bathing suits is permitted for SNI events, so long as it meets conservative, athletic-style standards of the **appropriate solid color**. Bottoms may not have side ties or bows. If you cannot do 10 jumping jacks in your swimsuit and have all your parts remain in place, your suit is not appropriate. Think competitive swimwear! If in doubt, please consult an adult leader before purchasing your swim uniform. It is critical that we are professional in our appearance as scientific divers.

Nauts ALWAYS wear navy.
 Generally, **men wear red trunks**;
 Women wear black suits. (so slimming!)

NOTE: It is often difficult to find a solid navy swimsuit for women that fits well and is economical. Please remember that NAVY is the dominant color and blue should be the only focus. Some acceptable style and color choices are shown here.
