

Hello!

Thank you for your interest in SCUBAnauts International! Being active members of SCUBAnauts will allow you and your child opportunities to establish new relationships, learn and apply scientific principles, and take part in rare and exciting experiences.

Along with this letter, we have provided you with answers to some frequently asked questions. Admittedly, there are several steps that need to be taken in order to dive with SCUBAnauts, and we will do everything we can to help. Becoming a Scientific Diver is a huge undertaking and we take safety very seriously, but we will provide all the forms and information necessary to make the process as easy as possible. If you decide to become a member you should use our easy-to-follow new member checklist. It's like a seasoned SCUBAnaut parent hanging right on your refrigerator.

And obviously, if you need more, there are many people you can turn to for help and information — any of our chapter presidents or dive safety officers, and all the other parents and nauts will be happy to assist you. Once again, thanks for your interest and we look forward to seeing you at our next dry meeting!

Sincerely,

*Your New Membership Team*
